

15th ANNUAL MEETING OF THE EVC

5th ANNUAL CONFERENCE OF VSE-DELTA GROUP

MULTISPECIALITY VENOUS PROTOCOL

EVC PRESIDENT
TAREK RADWAN

VSE DELTA GROUP PRESIDENT
HESHAM SHARAF

EVC VICE-PRESIDENT
KHALED ABD-AL AAL

ACCREDITED BY

Date: 30th October - 1st November 2019
Venue: Tolip Elforsan Hotel, Ismailia

Welcome Message

Dear Colleagues,

We are pleased to welcome you in the 15th annual meeting of EVC in collaboration of 5th annual conference of Delta vascular group.

This year we will discuss all aspects of venous diseases aiming at improving patient's outcome, support research and clinical innovation in venous field and promote evidence- based best practices to ensure patients quality care.

Together, we can lead to the way of healthy life.

Hesham Sharaf
Hesham Sharaf
President of DVG

Tarek Radwan MSc, FRCS
Tarek Radwan
President of EVC

EVC Scientific Committee

Tarek Radwan (President)
Khaled ABDEL AAL (Vice President)
Adel Kamhawy
Ali Mourad
Essam El-Kady
Ehab Saad
Ayman Salem
Mohamed Omar Alfarouk
Ahmed Farouk
Walied Khereba

Main Topics

- Diagnostic Imaging
- Epidemiology
- IVC Filters
- Lymphedema
- Superficial Vein Disease
- Venous Education
- Venous Obstruction
- Venous Thromboembolism
- Wound Care
- Cosmetic varicose veins treatment
- New venous stenting technology
- IVUS technology and venous disease
- Venous duplex scan workshop
- Pelvic venous diseases

- Chronic venous hypertension
- Swollen limb
- Nutcracker syndrome
- Venous Ulcers
- Non Thrombotic venous obstruction
- Central venous access
- Venous malformation
- AV malformation
- AV access for haemodialysis
- May-Turrner syndrome
- Thrombophilia
- Coagulopathy
- Venous Emergency

Workshops

12:00 – 13:00 **Workshop I: wound care**
Mustafa Soliman (Ain Shams University)

12:00 – 13:00 **Workshop II: Role of compression therapy in management of venous ulcers .**

Hosam Tawfik (Zagazig University)

Chairpersons:

Hosam Elwakeel

Walied Khereba

Yasser Elkiran

13:00 – 14:00 **Workshop III: (MEDI Workshop)**
How important to check ABPI before compression?
Bostjan Miklic. (Slovenia)

Lymphedema- How to improve drastically your therapy outcome
Jean christian lack (Germany)

October 2019

30th
Wednesday

Session I: Scientific abstract competition
(7 min each, 3 min discussion)

14:00 - 15:15

Chairpersons (alphabetical) :

Adel Kamhawy

Essam El-Kady

Hesham Sharaf

Mamdoh Elmezayn

Hosam Tawfik

14:00 - 14:10 CHIVA would it be the first option to treat varicose veins?

Shaima Mobarak (Suez Canal University)

14:10 - 14:20 Comparative study between EVLA and e CAT for treatment of lower limb varicose veins.

Mohamed Agina (Al-Azhar University)

14:20 - 14:30 Duplex guided foam sclerotherapy of incompetent perforators combined with compression versus compression alone for treatment of CVI.

Mohamed Zyada (Zakazig University)

14:30 - 14:40 Thromboembolic therapy for management of post-surgery recurrent varicocele.

Mohamed Emad (Mansoura University)

14:40 - 14:50 Endovascular management of failure of maturation of native arteriovenous fistulae due to outflow stenosis.

Amr Bakr (Al-Azhar University)

14:50 - 15:00 Management plan for thrombosed AV access based on its thrombus load: Kasr El Aini Protocol.

Kareem Ayman (Cairo University)

15:00 - 15:10 Single stage vascular repair and tissue covering in complex ankle injury.

Aly Sotohy (Al-Azhar University)

15:10 - 15:15 Discussion

JOBST[®]

Comfort, Health and Style!

JOBST[®] FarrowWrap[®]

LYMPHEDEMA MANAGEMENT
MADE SIMPLE WITH FARROWWRAP[®]
ELASTIC SHORT-STRETCH

HOW IT WORKS

How does JOBST FarrowWrap achieve compression?

- Special fabrics comprised of layers of fabric
- Smart, elastic, short-stretch bands
- Top to bottom band 50% overlap
- Optimal band width

MORE OPTIONS FOR YOUR PATIENTS –
FITTED FOR LIFE

BENEFITS

- The simplicity of the VELCRO[™] brand hook-and-loop fastener system reduces the healthcare professional's and patient's time and facilitates easy donning and doffing for maximum patient independence³
- Since the product is adjustable, fluctuating oedema can be controlled much more easily, even by the patients themselves – they have the power to control their own care⁴
- A variety of styles and sizes are available as a ready-to-wear variant and along with the custom-fit variant, this ensures there is a suitable product throughout the patient's therapy for their every need

JOBST[®]

Comfort, Health and Style!

JOBST[®] Relief is an compression stocking that provides physician recommended gradient compression to help treat symptoms commonly associated with vein disease.

- Quality garment at an economical price
- Soft, smooth texture
- A generous toe area
- Reinforced heel for added durability
- Available in petite sizing
- Soft, Smooth

- A generous toe area

daflon[®] 500mg

Micronized purified flavonoid fraction

A unique anti-inflammatory
and venoprotective action^{1, 2}

Treatment of chronic venous insufficiency Treatment of hemorrhoids

Composition: Micronized purified flavonoid fraction (MPFF) 500 mg. Indication: It is recommended for treating venous circulation disorders (swollen legs, pain, early morning restless legs) and for treating symptoms due to acute haemorrhoidal attack. It is indicated in the treatment of functional menorrhagia and premenstrual syndrome. Dosage and administration: Venous insufficiency: 2 tablets daily, 1 tablet at midday and 1 tablet in the evening, at mealtimes. **Haemorrhoidal attack:** the dose is 6 tablets per day for 4 days and then 4 tablets per day for the next 3 days, at mealtimes. Do not take DAFLON 500 mg, film-coated tablet: If you are allergic (hypersensitive) to micronised purified flavonoid fraction or any of the other ingredients. Take special care with DAFLON 500 mg, film-coated tablet: **Haemorrhoidal attack:** If the haemorrhoid disorder persists for more than 15 days, it is essential that you consult your doctor. **Venous circulation disorders:** This treatment is at its most effective when combined with a healthy lifestyle. Avoid exposure to the sun, heat, standing for too long, excess weight. Walking, and wearing appropriate stockings when applicable, promote blood circulation. Taking or using other medicines. Tell your doctor or pharmacist if you are taking or have recently taken any other medicines, including medicines obtained without a prescription. **Pregnancy:** If you discover that you are pregnant during your treatment, or if you are pregnant and plan to take this medicine, ask your doctor for advice. **Breast-feeding:** Breast-feeding is not recommended for the duration of the treatment. Possible Side Effects Common: diarrhoea, dyspepsia, nausea, vomiting.

Always read the full prescribing information. Other less common side effects are listed in full prescribing information. Healthcare professionals are asked to report any suspected adverse reactions. Servier Egypt - Scientific Office Address: 67 El Horreya St. Heliopolis Tel:(002) 02) 22906077-88. Fax: (002) (02) 26902057 P.O. Box 123 Heliopolis
