Patient Safety & Innovation In Modern Vascular Practice

Joint Conference of

Kasr El Ainy Annual Vascular Symposium

&

The 18th Annual Meeting of the Vascular Society of Egypt

in collaboration with

“Awarded 18 CPD hours by the Royal College of Surgeons of Edinburgh”

28th - 30th of September 2022

J.W Marriott Hotel, Egypt

LRC Cairo University conference center

Welcome!

Dear Colleagues,

On behalf of the Egyptian Vascular Society we warmly welcome you to this congress which brings together the 18th Annual Meeting of the Society with Kasr Al Ainy Vascular Symposium.

The theme of this year's conference is "patient safety and innovation in modern vascular practice". Through panel discussions, lectures and workshops, the programme will explore controversies, updates and guidelines across the entire spectrum of vascular and endovascular surgery. It will also aim to initiate a dialogue with our regulators on the standards and governance of the practice. With a large number of distinguished national and international faculty, sharing their experience and generating debates and interactive discussions, this promises to be an exciting programme.

This year's congress will be held in collaboration with the European Society of Vascular Surgery (ESVS), the Society of Vascular Surgery UK and Leeds Vascular Institute (LVI). We are very grateful to our Egyptian and international faculty who gave up their time to enrich this conference.

We look forward to seeing you all and trust you will find the programme stimulating and relevant to your practice.
